Hair Services

Quality Beauty offers a large selection of hair services for everyone. Not only do we have color specialists, we have expert extension specialists. No matter the service needed, our clients always leave our salons feeling their best with refreshed hair. We offer services for all types of hair, so everyone can come and get the style they desire without all

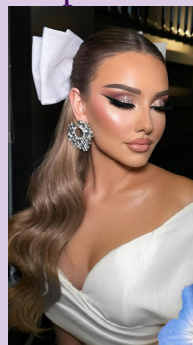

the hassle! Come & see what can be done! Prices may vary.

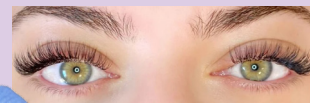

Makeup Services

At Quality Beauty, we offer services for makeup. Have you ever had an important event & not enough time to get ready? Head over to Quality Beauty on the day of any event and leave looking like a star! Whatever look you're going for, full glam or a natural look we can do for you! Not only do we have makeup artists to do your makeup for you, we provide classes to learn how to achieve these looks!

Eyelash Services

Our Lash services at Quality Beauty are always booked & busy! We offer Eyelash extensions, and of course eye lash extension classes. In both cases, our clients would have a consultation in order to know what look they are going for as well as which look works best for the features they have. Our in depth lesson offers knowledge on the types of lashes used, as well as the glue used and after care instructions. The class is a great option for those who want to explore the cosmetic side of beauty.

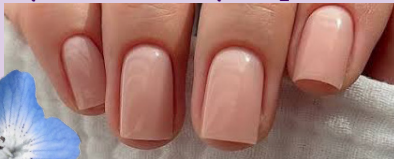

Nail Services

Our salon would not be complete without our nail techs! We offer manicures and pedicures, with regular paint, gel, as well as SNS.

Our techs all have their own unique style that all clients can enjoy & show off! We also encourage clients to bring inspiration photos for our nail techs to recreate! We have many chairs and techs so our customers will never have to wait for any service they require!

Appointments

Although appointments are not required, we highly recommend clients to do so. Our stylists and techs have many clients that make appointments, and they will be the first to be accommodated. We do offer home services as well as travel techs for weddings and other special events!
